

# Aditya Wable

## PERSONAL DETAILS

Current Location Pune  
Date of Birth June 15, 2003  
Male

## EDUCATION

### Graduation

Course B.Tech/B.E. ( Computers )  
College Shivnagar Vidya Prasarak Mandal's College of Engineering, Pune  
Score 7.13%

### Schooling

	Class XII	Class X
Board Name	Maharashtra	Maharashtra
Medium	English	English
Year of Passing	2021	2019
Score	76%	67%

## INTERNSHIPS

### CodeSoft | February 2024 - March 2024

- Worked on various web development projects as part of the internship program. Built and optimized webpages using HTML, CSS, and JavaScript, focusing on clean design and functional layouts. Gained hands-on experience in developing interactive front-end features and strengthening problem-solving skills by working on real-world coding challenges.

## PROJECTS

### Portfolio Builder Web Application | August 2025 - September 2025

- Developed a web-based application that allows users to create and customize their personal portfolios by selecting from predefined templates. The system enables users to input personal details, skills, projects, and achievements, which are automatically arranged into a professional portfolio layout. The portfolio can be previewed, downloaded, and shared via a unique link for easy access.

### Pharma Supply Chain Management System Using Smart Contract | August 2024 - May 2025

- The pharmaceutical supply chain is a critical component of the healthcare industry, where transparency, traceability, and security are paramount. This project explores the integration of blockchain technology through smart contracts to enhance the efficiency and integrity of the pharma supply chain. By leveraging Ethereum-based smart contracts, the system ensures immutability of records, automated verification of transactions, and real-time visibility across all stakeholders, including manufacturers, distributors, and re-tailers. The proposed solution addresses challenges such as counterfeit drugs, delays in distribution, and lack of accountability. The implementation demonstrates how smart contracts can automate crucial supply chain operations while ensuring data integrity and trust in a decentralized manner.
